  - Idealist.org
  - Governmentjobs.com
  - Wisc.jobs
  - USAJobs.gov
Four Components

• Clarify your Objectives
• Applying for Posted Jobs & Job Fairs
• Network
• Keeping your materials updated and ready to go
Clarifying Objectives: Geography

• Where do you want to live and why?
• Do you have to be in a geographic area? If so, why? TELL PEOPLE THAT!
• Be aware that certain markets are better for public interest and government work
  • DC, NYC, California, Chicago
  • Don’t fear the bar exam! If you have geographic flexibility, embrace it!
  • Federal jobs USUALLY don’t require a bar – but other attorney jobs in DC will!
  • Need in rural areas
Clarifying Objectives: Practice

- Many public interest employers want to see that you’re a “true believer”
  - You don’t have to have done the exact work – think about transferable experience (e.g., working with vulnerable populations; navigating administrative agencies and regulations; language skills)
  - You still have time to fill in gaps in your resume with pro bono or an externship – especially important if you want to enter a field where you have little experience
  - Think about your narrative – “I want this job because...”
Clarifying Objectives: Practice

• Unsure of what you want to practice?
  • Explore your career options through PSJD.org!

So you’ve found people you want to meet, now what?

Reach out!

Dear Ms. Smith,

David Johnson suggested I contact you. I had lunch with David yesterday to speak about his disability rights work. He indicated you have worked at the Oregon Center for Disability Rights since 2009.

I went to law school to be an advocate for those with disabilities. When I was nine, my mother became paralyzed in a car accident. Watching her navigate the ins and outs of society as a person living with a disability was inspirational. Additionally, while in Law School, I have worked at Disability Rights Wisconsin where I had the opportunity to advise multiple organizations and businesses regarding the ADA as well as work with clients living with disabilities.

I am moving to Oregon in December and taking the bar exam in February. My fiancé recently secured employment at Portland State University in the Sociology Department. I will be visiting him next week (October 7 – October 11) and would love to meet for coffee. I realize you have a busy schedule, so please let me know if there is a time convenient for you. Thank you in advance.

Sincerely,

Law Student

Dear Mr. Danielson:

Greetings from Madison! I am a 3L student at the University of Wisconsin Law School. I see that you are a 2006 alum working in the Federal Trade Commission in Washington, DC.

I am planning to move to DC after graduation and I will be sitting for the Virginia bar exam in July. Having interned at the AARP in DC last summer, I am eager to return to the area. I am particularly interested in your work because I was a student attorney for a year at the Consumer Law Clinic here at UW Law School, and I am very interested in consumer protection law. I will be in DC for the Equal Justice Works Conference October 22nd and 23rd and I would love to meet for coffee. I know that you have a very busy schedule, but do you have 15 minutes on either of those days to meet? Thank you for your time.

Best regards,

Emily

How to follow up...

• If you have not heard from the person to whom you sent an email, follow up either right before you leave for the location or when you get there.

• Forward the last email and confirm he or she received it.
So you’ve scheduled an informational coffee, now what?

• Be prepared!
• Look professional (business casual).
• Show up with targeted questions.
• Ask for a business card and FOLLOW UP.
• Remember to ask if there is anyone else they would recommend you meet.
Keeping your materials updated and ready to go

• Some jobs – particularly federal jobs – have very short windows (e.g., open until they receive 100 applicants)
• Frequently review your resume and cover letters
• Have multiple resumes and cover letters ready to go
  • Competitive service
  • Excepted service
  • Direct applications
• Make sure you target your cover letter to the specific job/geographic area/both
• MAKE AN APPOINTMENT WITH US TO REVIEW YOUR MATERIALS!
Remember....

- First jobs are often a stepping stone

- The average worker today stays at each of his or her jobs for 4.4 years, according to the most recent available data from the Bureau of Labor Statistics, but the expected tenure of the workforce’s youngest employees is about half that.

Conclusion

- Do your research and pay attention to application deadlines.
- Have materials reviewed by OCPD / come talk to an advisor.
- Reach out to contacts and continue building your network.
