Where Did the Dream Go
Francis H. Buckley, George Mason University Foundation Professor of Law, George Mason University Antonin Scalia Law School

ABSTRACT: Economic inequality has rightly become a major political issue, but intergenerational immobility is a far greater problem. The American Dream is one in which our children will fare better than we did, but now the dream has fled to other countries, especially Canada. A comparison between the two countries explains why American dream has faded while that of Canada thrives.
